CREATE FRAMEWORK

Communication	Relating to others	Enterprise	Applied	Thinking	Emotional Intelligence
Learners can convey information and ideas so they are received and understood by others.	Learners successfully interact with others in a range of roles and situations.	Learners can develop, implement and learn from ideas.	Learners understand and are able to effectively apply their skills to a variety of situations and contexts.	Learners can process ideas to make reasoned judgements and solve problems.	Learners understand and can manage their own and others' emotions.
